

The Leading Manufacturer of Non-Marring, Non-Sparking Hammers, Proudly Made in the USA, Since 1956.

All of our hammers feature:

1. **NON-SPARKING HEAD**
For safe use near combustible materials.

2. **NON-MARRING HEAD**
Helps absorb impact and helps reduce work damage where surface protection is critical.

3. **DOUBLE FACED HEAD**
Cast barrel shaped head offers maximum striking surface while enhancing balance.

4. **WOOD HANDLES**
Our Tennessee grade-A Hickory handles are specially tapered, fire finished, with a tough urethane coating applied, providing better durability and UV protection. They have a textured handle providing a non-slip grip while striking.

5. **FIBERGLASS HANDLES**
Our fiberglass handles are high visibility yellow in color and are ergonomically designed to help prevent injury from repeated use. Cushion grips provide a non-slip grip and maximum comfort while striking. Shoulder protector design prevents breaking during overstrikes.

6. **BRASS WEDGES**
The ABC brass wedge permanently secures the head to the handle and eliminates the spark danger associated with steel wedges used in other hammers.

Proudly Made In The USA

Making your workplace safer is as easy as ABC... using non-sparking ABC Hammers in any high risk area where a spark can create a disaster.
